Architect's review is only for general conformance with the design concept of the project and general compliance with the information given in the Contract Documents. Corrections or comments given made on the shop drawing during this review do not relieve contractor from compliance with the requirements of the plans and specifications. Approval of a specific item shall not include approval of an assembly of which the item is a component. Contractor is responsible for: dimensions to be confirmed and correlated at the job site; information that pertains solely to the fabrication processes or to the means, methods, techniques, sequences and procedures of construction; coordination of the Work of all trades and for performing all work in a safe and satisfactory manner.
